TEN CENTS PER WEEK

PRISONERS SAID POLICEMEN TOOK MONEY FROM THEM

Tennessean Tells About Leaving Pistol and \$16. in a Horse Trough, and Accuses Jones and Johnson of Taking Them—Investigating.

ARRESTED AT THE STATION.

Charges of robbery preferred against Patrolmen Casper Jones and William Johnson by M. C. Reasons, Henry McElroy and O. A. Kingston, of Tennessee, are being heard in a public investigation at the city hall this afternoon.

Charges were preferred against the two policemen last night after the arrest of Reasons for carrying concealed on his person a pistol. The charges created quite a stir in police circles, and this morning Mayor D. A. Yeiser held a private investigation in his office to ascertain facts.

He concluded his inquiry at 11 o'clock and announced a meeting of commissioners for this afternoon to hear charges.

C. Hightower employed Reasons, who says he is a deputy sheriff, also a constable, to find his wife. Young Kingston was supposed to know something of her whereabouts, and was arrested and taken to Dyersburg on a warrant, charging "gaming." When the facts were made known to him, and he understood that he was supposed to know of Mrs. Hightower's whereabouts, he readily came to Paducah with the trio to assist in the search. Mrs. Hightower was found and this ended the duties of Reasons and his companions. They had a few hours to spare and started in to see the sights.

Didn't Find Weapons. Reasons claims to be a deputy sheriff and holds from Finley, Tenn. He came here with C. Hightower, O. A. Kingston and Henry McElroy, of Mendenhall, Tenn., to assist them in finding Hightower's wife. They allege that she left home and came to Paducah, and that Reasons knew where she was.

About noon yesterday they were at the Gray & Gray saloon Seventh and Washington streets, drinking. Henry Skelton, the negro porter, is alleged, tipped it off to Patrolman Casper Jones, that the three were loaded with pistols and handcuffs. Patrolman William Johnson was en route home and Jones called him to assist in searching the three suspects. They found nothing, the three having no money or pistols.

They were left at the saloon and this was the last heard of them until last night when Special Policeman Patillo Kirk, of the Illinois Central, arrested Reasons at the Illinois Central depot in company with McElroy and Kingston for carrying concealed a deadly weapon. At the city hall Kirk turned over Reasons to Jailer Tom Everts, but there was no warrant issued, no one making oath against Reasons. It was at the city hall that the Tennessean complained that two patrolmen robbed him.

Reasons' Story. Reasons said to a reporter: "We were at the saloon and our pistols and \$16 in money, which we had placed in a horse trough in the saloon back yard, were taken, and we suppose that the two policemen took them. One of the policemen told me that I could go to the horse trough and get my pistols, but that I would have to leave the 'feed' alone. I supposed that he meant the \$16 in cash by the 'feed' part of it. Anyway, our pistols and money were gone when we did go for them."

Henry Skelton, the porter, stated that he found two pistols in the trough but no money. He stated that he presumed the farmers had hidden the weapons when policemen appeared to make a search. When the weapons were shown them, neither one of the three would identify them as his property. They admitted that they had carried them concealed, however. "We do not know anything about their losing guns and money," state Patrolmen Jones and Johnson. "We received information that they had guns on them, but a search revealed neither money nor weapons, and we left them where we found them, in the saloon."

Patrolman Johnson was en route home to dinner when he met Patrolman Jones, residing not far from Seventh and Washington streets.

Another Version. At the Illinois Central depot last night just before arrested Reasons was talking freely of the alleged robbery. He stated in presence of several reliable witnesses, that he was robbed of \$13 by a deputy sheriff, it is said, Val P. Barriek, formerly assistant trainmaster of the Illinois Central, now a freight conductor, heard the statement.

STEUNENBERG WAS IMPLICATED ALSO IN TIMBER FRAUD

Sensational Evidence Adduced at Trial of United States Senator Borah, of Idaho, by Federal Prosecutors—Former Governor Paid Money.

SOME IMPORTANT LETTERS.

Boise, Idaho, Sept. 28.—Half a score of letters, which the government attorneys in the trial of Senator Borah declared go to show the complicity of former Governor Frank Steunenberg in the alleged Idaho timber land fraud conspiracy, were offered in evidence and read to the jury. The letters were written by William Sweet, one of the indicted men; who, it is reported, will take the stand as a witness for the United States. The documents were produced by J. H. Richards, a local attorney, to whom they were written and who acted as the legal adviser to Sweet. Senator Borah's name was drawn into the case for the first time just before adjournment, when H. S. Worthman, another local attorney, took the stand and produced more letters from Sweet. One referred to \$10,000 due Sweet from Steunenberg and said: "I wish you would see William E. Borah about this and get him to make a little statement of the governor's obligations to me. He is the governor's attorney, but is a first-class gentleman and knows that a little statement is only fair to me."

Steunenberg Paid. After having spent all of the previous day in bringing out the testimony of 13 persons who admitted they had taken out claims to timber lands for the express purpose of selling them to members of an alleged land grabbing conspiracy, the government attorneys in the trial of United States Senator Borah, turned the line of evidence into new channels, which they claim will tend to affect the defendant.

The testimony so far adduced has been confined to the activities of John I. Wells and Louis M. Pritchard, two of the men under indictment. None of the "dummy" entries examined and the testimony that they received from Wells the money with which to prove their claims, and from Pritchard the \$250 bonus for surrendering their titles, went uncontroverted.

Just prior to adjournment the prosecuting attorney identified the signatures of former Governor Frank Steunenberg and William Sweet to a document said to have been a contract. It is alleged that Steunenberg and Sweet jointly furnished the money with which the first fraudulent transactions were carried on.

S. R. Rush, of Omaha, the special assistant to the attorney general, who has been active in timber and coal land prosecution throughout the west, has assumed control of the case while the evidence is being put in.

Ellithorpe Excited Dogs to Fury, and Then Fought for His Life When His Automobile Went Dead

Attacked by a pack of vicious dogs on Clark's river road, Clarence (Fatty) Ellithorpe, a well known Illinois Central machinist, was forced to fight for fifteen minutes entrenched on a small automobile he was testing, with no weapon but a stick seized hastily from the roadside. Ellithorpe recently purchased an automobile. It is a small buckboard runabout, and was out of repair when the machinist bought it. During extra hours he repaired it and, completing the work last night, went into the country to give his machine a test. When several miles from town his machine attracted the attention of dogs, which ran out and barked viciously at him. Ellithorpe was speeding rapidly towards town when his machine went dead, and the dogs quickly caught up with him. All the time Ellithorpe had been urging them on, never suspecting that his machine would go dead. He was thoroughly exhausted when he successfully fought off the pack, and as quickly as possible repaired the break and returned to town.

the firm of Gray & Gray, in whose saloon the robbery is alleged to have been committed, stated to a reporter: "The strangers came into my place of business early yesterday morning, and began drinking. They were quiet and did not get drunk. They were feeling pretty good, but I would not call them drunk. Patrolmen Jones and Johnson came in and searched them, but I did not see the search as it was made in the rear of the saloon."

CLOSE TO BOOKS OF STANDARD OIL KELLOGG THINKS

Government Attorney Says He is Nearer Solution of Mystery of Their Disappearance Than He Has Ever Been Before During the Trial.

ASSISTANT SECRETARY TALKS.

Many records of the Standard were burned in 1900, according to the testimony in the suit to dissolve the New Jersey Standard. Charles W. Hite, a former Standard man testified he did not know whether the records were burned but he thought they were.

New York, Sept. 28.—Frank B. Kellogg, conducting the suit of the government of the United States for dissolution of the Standard Oil company of New Jersey, made another hunt today in the hearing of the oil case to discover a trail that would lead to the finding of the long sought books of the Standard Oil trustees and the liquidating trustees. When the hearing was concluded, Mr. Kellogg said he was closer to the books from which he hopes to prove the oil combine should be dissolved, than he has been at any time since the government action was commenced.

Charles White, assistant secretary of the Standard Oil company, of New Jersey, said on the witness stand today that when he went to the secretary's office to assume his duties, there were two steel safes in the office. One of them contained books and records of the Standard Oil company, the witness said but what was in the other he did not know. Mr. White said the second safe was removed two weeks after he came there. Mr. White said he had never seen the records showing various transfers of stock in trust liquidating period. He had hunted for records recently, but was unable to find them.

Gans Wins.

Los Angeles, Sept. 28.—Joe Gans, the lightweight champion of the world, last night won a decision over George Mensie (Jimmy Burns) at the end of a scheduled 20 round bout. This is Gans' second victory in two months.

While everybody conceded that Jimmy Burns, alias Mensie, had a slight chance to beat Gans, they were astounded at the showing he made, considering the amount of punishment Gans gave him. While Burns fought a strong battle all through, he did not at any time have Gans in distress.

BIG CROWD HEARS JUDGE BREATHITT AND MACGREGOR

Smithland, Ky., Sept. 28.—(Special)—One of the most interesting political meetings so far held in Livingston county is in progress here today. Judge James Breathitt, of Hopkinsville, Republican candidate for attorney general, Mr. Thomas MacGregor, of Benton, candidate for legislature, and Mr. Frank Fisher, postmaster of Paducah, drove through from Paducah today, and are addressing the people of this county on issues of the state campaign. All three of the gentlemen are well known here, and farmers from all sections of the county and adjoining counties, arrived early to hear them. Livingston county is exhibiting live interest in the state campaign and the Republicans are encouraged by an apparent revolt of old line Democrats against the machine.

REV. GEORGE FARLEY RESIGNS PASTORATE

Leaves Tenth Street Christian Church to go to Muskogee, I. T.

After a pastorate of a few months, the Rev. George H. Farley, pastor of the Tenth Street Christian church, has resigned and will preach his farewell sermon tomorrow night on "Heaven." The morning subject will be "The Crucified Christ, the Apostolic Message." Mr. Farley will go to Muskogee, I. T.

The Rev. Mr. Farley resigned two months ago, because he felt that conditions made the field at Muskogee more desirable, and one in which he can do the more good. His resignation was reluctantly accepted. The church is now without a pastor again, and no selection has been made of a successor to Mr. Farley.

It is the duty of every voter to register Tuesday and register early. Sickness, business or one of many unforeseen contingencies may arise to prevent your registering in the afternoon. Your party workers will be looking after the voters to see that they get out. Everyone who registers voluntarily and early relieves them of that much responsibility and gives them the more time to look up the dilatory. Go early and speak to your neighbors about registration. Tuesday's registration may decide the local election. The party whose vote gets out first will have the advantage.

An Old Murder Case.

Findlay, O., Sept. 28.—A letter from the coroner of Rio Blanco county, Colorado, partly clears up the murder of Peter Rouen, 12 years ago. The name of the murderer is not known.

PARADE TO MARCH THROUGH COTTON ARCH AT MEMPHIS

Plan of Entertainment of President at Waterways Convention About Completed—Big Bear Hunt Is Being Arranged in Louisiana.

CHICAGO ALL WATER ROUTE.

Memphis, Sept. 28.—When President Roosevelt arrives in Memphis on October 4 to attend the waterways convention he will be escorted through a cotton arch, which is to be erected on Second street, in front of the Cotton Exchange. It will be sixteen feet high, and 74 bales of cotton will be used in its construction. It will be illuminated and will be covered with inscriptions. The banquet which was to have been given in honor of the waterways delegates and which has been called off as told yesterday, would have cost \$4,000. In place of the banquet a smoker will be given at the Auditorium, and it is expected that about 3,000 persons will attend. After President Roosevelt concludes his stay in Memphis he will leave that city over the Iron Mountain railroad and proceed to Alsatis Station, in Louisiana. The president will hunt bear, beginning October 6, for two weeks. His train will be on the Tensas river, 18 miles from Lake Providence, La. Only last week Phil Thompson killed a bear weighing over 400 pounds in the territory over which the president will hunt. The sheriffs of the parishes of Madison and East Carroll have been requested to keep all newspaper correspondents, curious persons, kodak fiends and visitors from the camp while the president is there.

Message Goes By Water.

St. Louis, Sept. 28.—It was announced today from headquarters of the "Lakes to the Gulf Deep Waterway association," that one of the features of the president's visit to St. Louis October 2, will be the delivery of a message from Mayor Busse, of Chicago, by water. The message will be carried by fast motor boats the entire distance from Chicago to St. Louis, the object being to show that a waterway from the Lakes to the Gulf already exists. The fastest boats on the different sections of the Illinois and Mississippi river have been selected and the message will be relayed. An attempt will be made to make the 400 miles in 25 hours, despite the locks and necessary stops.

INCREASE HUNDRED IN PUBLIC SCHOOLS

Supt. Carnagey Pleased With Conditions at End of First Month.

Although it is impossible to ascertain definitely, Superintendent John Carnagey estimates the increase of enrollment since the first week of school at 100 pupils. He will not be able to know definitely until all monthly reports are in.

"Schools are running smoothly," stated Superintendent Carnagey. "We are getting excellent work from pupils, and the greatest interest is being taken in the work. Always the first month of school is marked by more or less confusion, and our start was hampered by several registrations and some illness. Another factor interfering with smooth work was the congestion, which necessitated the employing an extra teacher in departmental work at the Washington school."

ATTEND MISSION FESTIVAL

The Rev. William E. Bourquin left this evening for Brookport, Ill., to be present at a mission festival of the German Evangelical church near that place. He will be gone all Sunday.

The ceremony will be witnessed by only the families and most intimate friends. A reception from 9 to 11 o'clock will be given by Mr. and Mrs. Boone in honor of the bride and groom, who will leave that night for an extended wedding trip. They will make Paducah their home.

Miss Holland is one of the most popular and charming of the young society girls and has been a recognized favorite since her debut two winters ago. She is the only child of Mr. and Mrs. Thomas Edward Holland, 436 South Sixth street, and is prominently related in Paducah. She is a member of the Entre Nous club, a coterie of especially charming debutantes of the past two winters.

Mr. Province is the son of Mr. J. R. Province and a member of the firm of J. R. Province & Son. President Thompson, of Matinee Club, and Mr. George Goodman Express Satisfaction With Sport and Tip it Off That Races will be Annual Event in Paducah.

CONGRATULATE OFFICIALS

Promoters of fall races here will lose money instead of making expenses. The loss is attributed to the slim attendance on Tuesday and Wednesday. While it is impossible to know definitely just how the association stands, promoters say that they will not more than make an even break.

Mr. A. S. Thompson, president of the Matinee club, said today, regarding the success of the meet:

"We had a successful meet, a fact to which all connected with the races testify. We had slim attendance the first two days, and but for this might have made a little money. The races from a sporting standpoint were excellent. We lowered two records and some of the prettiest and fastest work ever seen in western Kentucky was witnessed."

Judges, timers, starter, horse owners and the public were well satisfied with the meet. While it is not definitely decided, it is tipped that races will be an annual feature in Paducah. The success of the meet will bring horses here from many cities not represented this year.

Mr. Goodman Pleased.

Mr. George Goodman stated this morning that the horse show would not prove a paying venture. While nothing definitely can be told until all bills are met, he believes that figures will show an even break. Last year it was estimated that the association would make \$600, but it was a loser for \$250 on account of the weather. "We hope to have fall races regularly from now on," stated Mr. Goodman. "We consider this an excellent meeting, and were complimented highly by Mr. Talbot, Mr. Palmer and others who officiated."

Silver for Mr. Palmer. This morning before his departure from the city, a handsome chest of silver was presented to Mr. Walter Palmer, presiding Judge at the fall races and horse show. Mr. Palmer is from Ottawa, Ill., and is recognized as one of the best judges of horses in the country.

How to Cure Constipation

Few people altogether escape a disorder of the bowels. You may catch cold, over-eat, over-drink, worry too much, not exercise enough or do a hundred and one other things that result in constipation or costiveness. When the trouble comes it is well to know what to do for it. In the opinion of thousands there is no better cure for constipation than Dr. Caldwell's Syrup Pepsin, which anyone can obtain for 50 cents or \$1 at a drug store. We all have constipation occasionally, and the sensible thing to do is to have a bottle of this remedy always in the house. You take it at night on retiring, for example, and when you wake up in the morning at your usual hour it produces its results. Your stomach instantly becomes lighter, your head clearer, your eyes brighter, you feel active and spry once again, your appetite has returned and you are ready to work with enthusiasm and vigor. All this may not have taken more than a dose or two, at a cost not to exceed two or three cents. Can you afford to feel bad when you can feel good for so little?

Dr. Wilson Brown, of Metropolis, Ill., has no hesitancy in saying that Dr. Caldwell's Syrup Pepsin is the greatest of all laxatives and he frankly admits to his patients that they need it when the stomach, liver or bowels get out of order they would have less need of him. It is without doubt the best cure for occasional or chronic constipation, dyspepsia, biliousness, jaundice, sour stomach, lazy liver, flatulency, diarrhoea, and all other digestive ailments in old or young. It is a thousand times better than salts or purgative waters, acts gently but surely, is pleasant to the taste, does not grip, and cures permanently.

Go to your druggist and get a 50 cent or \$1 bottle and see if our claims are not justified.

FREE TEST Those wishing to try Dr. Caldwell's Syrup Pepsin before buying can have a free sample bottle sent to their home by addressing the company. This offer is to prove that the remedy will do as we claim, and it is only open to those who have never taken it. Send for it if you have any symptoms of stomach, liver or bowel disease. Gentile yet most effective, permanent home cure. THE PUBLIC VERDICT: "No Laxative So Good and Sure as DR. CALDWELL'S SYRUP PEPSIN." The product bears purity guarantee No. 17, Washington, D. C.

Five races, the concluding program of the annual fall races, were run at Edgewood course yesterday afternoon before a packed grand stand. The track was in good condition and the weather perfect.

The Week In Society.

AN IDLER'S CONFESSION.

Another summer wasted, gone,
And I an idler looking on!
From all the world's vast harvesting
I garnered up not anything.

And yet methinks I may demur
A bit, a little to aver:
I swapped a smile and traded some,
And killed an hour with a chum;
Mended a heart another'd broken,
Kept still the while I might have
spoken;

Lost one sweetheart in finding two,
And to a dozen more proved true;
Rode with the rich, walked with the
poor,
And lost the key to my own door;
I shunned the knave, talked with
the fool,
And found the whole wide world a
school;

Bade an old love a sad good-by,
(Would hearts were mended with a
sight)
And, turning, much to my surprise,
Found a new love in two new eyes.

But summer's gone; this worded
brief
Is just a playful hint of grief.

The Social Calendar.

The week has been a well-filled
one, but everything has been in
connection with the Horse Show festi-
vities and there has been little private
or informal entertaining done, in fact
no one has had time for it. The
races in the afternoon and the Horse
Show at night have quite absorbed
everybody. The special entertain-
ments were the opening reception of
the Woman's club house on Monday
evening, which was a beautiful affair
and the Cotillion club and Horse
Show balls, brilliant events. The
coming week promises to be mostly
literary, as the clubs will come in
with October and many are scheduled
to meet. After the summer's rest
the members are anxious to take up
work again and are busy "brushing
the cobwebs out of their brains," if
Paducah's notable housewives have

IN OLDEN TIMES

People Were Content to Take Things
Easier Than Now.

If our forefathers could behold the
modern locomotives, automobiles and
electric cars, they would hold up their
hands in astonishment.

The stage-coach was fast enough
then—people were more content to
take things easy.

They used to be satisfied with any
sort of a hair lotion that came along

thought it was because Baldness
could not be prevented.

Its different now. People know

Miss Virginia Newell at her studio in
the Craig Annex, Sixth and Monroe
streets, on Thursday afternoon at 4
o'clock. This will be the first meet-
ing of the club for this season and

D. A. R. Chapter.

The Paducah chapter, Daughters of
the American Revolution, will meet
on Friday afternoon at 3 o'clock with
Dr. Della Caldwell, 735 Broadway.
It will be a "Jamestown meeting,"
and the following interesting pro-
gram will be presented:

1. Jamestown of Yesterday and To-
day—Mrs. Charles K. Wheeler.
2. National Day at Jamestown, Octo-
ber 11—Mrs. W. A. Gardner.
3. Jamestown as Viewed the Past
Summer—Dr. Della Caldwell.

At this meeting, which will be the

which the public is generally inter-
ested. On Tuesday, October 1, the
chapter will serve dinner at the
Rhodes-Burford store for the benefit
of the public fountain fund and are
anticipating a liberal patronage of
the public for the occasion.

Woman's Club Meetings.

The first open meeting of the Wo-
man's club for this season will be on
Thursday afternoon, October 3, at the
club house at 4 o'clock. It will be
under the auspices of the literary de-
partment. Mrs. Muscoe Burnett,
chairman. Mr. Max B. Nahn, of
Bowling Green, will address the club
on "Folk-Lore." Mr. Nahn is a
graduate of Princeton college, Prince-

o'clock, preceding the lecture.

On Friday evening and Saturday
afternoon, October 4 and 5, Miss Nan-
nie Lee Frayser, of Louisville, will
speak at the club, also under the aus-
pices of the literary department.
Miss Frayser is one of Kentucky's
gifted women and is a specialist in
primary work and the teaching of
little children. So successful was she
in her primary Sunday school work in
Louisville that she has attracted na-
tional notice. She is very charming
in manner. She will speak on "The
Value of Story-Telling," and her lec-
ture will especially appeal to mothers
and teachers.

The literary department of the
Woman's club has arranged an inter-
esting program for this year's work.
They will study writers and thinkers
of the present day. The first meet-
ing will be an "Ibsen" one, and will
be held Thursday morning, October
10, at the club house. Two papers
on Ibsen will be given by Mrs. Muscoe
Burnett and Mrs. Robert Phillips.
Mrs. Sarah Dunbar, who will be here
on October 7, with Jane Corcoran in
"The Doll House" will speak to the
literary department during her stay
on "Ibsen," but with especial refer-
ence to the play of "The Doll House."

3. Sources of Information—Chrono-
logy—Mrs. J. C. Flournoy.

The year book for 1907-1908 is
most complete in its arrangement and
artistic in dress. It is the very clever
work of Mrs. Edmund M. Post and
Mrs. George Flournoy, the program
committee, and evidences thorough
research into Egyptian lore. It is in
green and white, the club colors, and
on the cover is a design of the Pylon,
the monumental gateway to an Egyp-
tian temple, with "Aspirant of the
Mysteries, Welcome." Beside the
program for the year, and other club
data, with constitution and by-laws,
the books contain a full list of books
of reference on Egypt, not only those
owned by the Delphic club, but all to
be found at the Carnegie library,
which is a very helpful suggestion.

The Delphic officers for the club
year are: Mrs. Mildred Fowler
Davis, president; Mrs. George Clay-
ton Wallace, vice-president; Miss
Helen Bullitt Lowry, secretary; Mrs.
Robert Becker Phillips, treasurer.

The library committee is: Mrs.
Frank Scott, chairman; Miss Fowler,
Mrs. George Wallace.

The club membership is limited to
24. One new member, Miss Carrie
Rieke, was added at the close of last
spring, but there will be two vacan-
cies to fill at the meeting on Tues-
day, one by death and one by resigna-
tion. The Delphic always has a
waiting list, however. The mem-
bers now are: Mrs. C. B. Austin,
Mrs. Frank Barnard, Mrs. Muscoe
Burnett, Mrs. Mildred Davis, Mrs.
George Flournoy, Mrs. J. C. Flournoy,
Miss Helen Lowery, Mrs. A. R.
Meyers, Mrs. Annie Hughes Morrow,
Miss Ethel Morrow, Miss Fowler,
Mrs. Elbridge Palmer, Mrs. Robert
B. Phillips, Mrs. Edmund M. Post,
Mrs. W. W. Powell, Mrs. Louis M.

4. Current Events—Mrs. Vernon
Blythe.

The year book is an attractive sym-
phony in green and gold, the club
colors, and beside the cleverly ar-
ranged program, is replete with the
club data. The officers are: Miss
Elizabeth Sinnott, president; Miss
Ethel Morrow, vice-president; Miss
Marjorie Scott, secretary and treas-
urer. The club is composed of the
young matrons and society girls and
the 24 members are: Mrs. Vernon
Blythe, Mrs. Edward Brinkhurst, Mrs.
David Flournoy, Mrs. Henry Rudy,
Mrs. John Scott; Misses Mary Boll-

is most interesting. On Friday the

Horse Show Ball.

The Horse Show ball on Friday
evening at the Wallace park pavilion
was an especially brilliant affair and
a fitting finale to a week of pleasure.
The pavilion was gay with the horse
show colors of red, blue and gold.
Streamers and draperies of these
were fastened about it and big horse
shoes in the tri-colors were a pretty
feature of the decorations. The
charm of the scene was enhanced by
the beautiful women in evening
dress. There was a large crowd in
attendance and many visitors were
present. Dancing did not begin until
after the horse show, and being a
program affair, was the more informal
and enjoyable.

Luncheon at Gregory Place.

Complimentary to a number of
visitors in the city, Mr. and Mrs.
Oscar L. Gregory, of Rustic Hall,
Gregory Place, entertained with a
handsome luncheon on Friday at 1
o'clock. The table was most effective
in a combination of pink and white,
with roses for the decoration. The
guests were: Mr. and Mrs. Walter
Palmer, of Ottawa, Ill.; Mrs. Gustave
Warneken, of Clarksville, Tenn.;

Tenn.; Miss Ethel Morrow, Mr.
Baker, of New York; Mr. James, of

rodsburg; Mr. A. S. Thompson.

Beautiful Cotillion.

The Cotillion club gave one of its
characteristically delightful enter-
tainments on Wednesday evening
complimentary to the visitors in the
city for the Horse Show. It was at
the Wallace park pavilion and was a
full dress affair. While not a favor-
ite of the club, it was an unusually beau-
tiful spectacle. Dr. and Mrs. Victor
Vorlis led the german, which was
danced with spirit.

Woman's Club Reception.

A brilliant function of the week
was the opening reception of the
Woman's club house on Monday even-
ing. For the first time the beautiful
new building was thrown open to the
public and the rooms were crowded
during the evening with guests. The
club colors, gold, green and white,
which are emphasized throughout the
building, were prettily carried out in
the decorations of golden rod, yellow
daisies, ferns and palms. Coffee and
sandwiches were served in the dining
room and punch on the back porch,
prettily arranged as a Japanese tea
garden.

Informal Evening.

Mr. and Mrs. A. E. Stein, 428
South Fourth street, entertained the

DEMOCRACY.

Between its efforts to discredit the national Republican administration in the work of coping with industrial evils, and the necessity of presenting a remedy equally as drastic, the Democratic party is often compelled to sacrifice consistency in its platform. For instance, the Nebraska Democrats played both ways to win in their state platform adopted this week. The platform expresses opposition to the centralized ideas of the Roosevelt policy of dealing with corporations engaged in the interstate commerce, and at the same time demands a federal license system for such organizations.

Originally the Democratic party sprung into being as a protest to the Federalists, and its fundamental doctrine was state rights—the national government has such powers only as

are delegated by a strict construction of the constitution, as opposed to an elastic constitution with implied authority.

That doctrine is the antithesis of socialism, and in the extreme sense means a loose federation. Of course, the federation idea is a thing of the past; and we are beginning more and more to realize that the constitution is an instrument designed for the protection of our liberties, not a set of regulations to be resisted and avoided whenever possible. Now conditions, and problems of national life have arisen since the constitution was drawn. Its framers designed it to meet exigencies that might arise in the future and which they could not foresee, and it is our right, as it was the right of our forefathers, to interpret the constitution as it applies to these conditions, and do that in the belief that the wisely drawn constitution is intended to convey to our government the power to meet these conditions fairly and squarely, and not that it is an impediment, of which we must ever be mindful. The constitution is the safeguard of our national existence, not a ball and chain to our feet.

These conditions have made it necessary for the Democratic party of late years to advocate doctrines more socialistic than Democratic, and its leader has gone so far as to publicly announce his infatuation for government ownership of railroads, the first step toward paternalism. Yet, while doing this, ever aiming to arouse the radicals against the conservative policy of the Republican administration, the party shouts for state rights and the limitation of national authority in coping with the evils, which it deplures.

That is the spirit of the Nebraska platform, and it goes further into downright dishonesty by declaring for revision of the tariff, and then coming out flatfooted for free trade. That is not reason, but abolition, and the intention is to confuse the two, so that it will appear that the Democratic plan coincides with the view of the tariff revision wing of the Republican party.

And now, let us get to work for immigration. We learned one lesson at the convention this week. The way to get immigrants is to get them.

A NATIONAL PROBLEM.

After all, the central thought of Terrence V. Powderly's address was, what The Sun has always declared, that the solution of the European immigration problem, is not prohibition, but absorption. Clean out the Ghettos and the foreign colonies in our cities, scatter the foreigners among our own people, bring them under American influences and that will make Americans of their children. Thus handled they can not reduce wages; for there is such a scarcity of hands now, that the development of our national wealth is retarded, and the introduction of more wealth producers and consumers, can only increase the wealth and demand for labor. We all sprung from the same origin, and the only difference between ourselves and the European immigrants, is a century or two of time. The men, who laid the foundation of our liberties, and gave to us those principles, which we delight to consider exclusively American, were immigrants from Europe less enlightened and more despotic than the one from which these people come. However, we shall limit our endeavors to inducing a high class of agriculturalists of independent means to locate here.

TRICKY LAWYERS.

No tinnhorn gambler could stoop to lower means to evade the law, than did the Standard Oil company, "by advice of counsel," in avoiding the effect of the Hepburn law, declaring interstate pipe lines to be common carriers. Imaginary towns were located on state lines and designated as terminals of the pipe lines, so that independent companies, using the pipe lines, found their destination in a wilderness far from the sea shore, while another pipe line, nothing but a continuation of the one with the imaginary terminal, carried the trust's product onto the sea, across another state. The government could control a pipe line doing an interstate business, but when the line ends at the state's border, and a new one starts up at the same place, the company can get around the provision of the law, that is, it could until Lawyer Kellogg compelled an officer of the company to expose the trick.

The lawyer, who advises a client to resort to such practices to evade the plain import of the law, knowing that it is not a conformity to a regulation, which avoids the penalty of a prohibitory measure, but a secret violation of the plain intent, is nothing but a trickster and a disgrace to the American bar, and the Standard Oil is not the only concern which puts so-called "corporation lawyers", to such base uses.

Sir Thomas Lipton now knows the rules under which the American yacht cup race is to be run.

The city authorities should compel the Standard Oil company to move its storage tanks outside the city. It is compelled to do so elsewhere. Located long the railroad tracks, in the very heart of the city, and stored with combustibles and explosives, these tanks are a constant menace, and may interfere with the reduction of insurance rates.

The people south of Broadway and west of the Illinois Central railroad are entitled to a safe crossing, either over or under the railroad tracks.

Your party workers will be looking after the voters to see that they get out. Everyone who registers voluntarily and early relieves them of that much responsibility and gives them the more time to look up the dilatory. Go early and speak to your neighbors about registration. Tuesday's registration may decide the local election. The party whose vote gets out first will have the advantage.

ROOSEVELT DECLARES FLEET WILL GO TO THE PACIFIC.

Washington, Sept. 28.—President Roosevelt declared emphatically to some of his callers this afternoon that the battleship fleet would certainly make the cruise to the Pacific coast next winter. All the obstacles that have been cited and all the opposition that has been aroused by the announcement seem only to have increased the president's determination to send the ships on the long voyage.

The question of obtaining coal for the voyage, of which so much has been made by those opposed to the cruise, does not give the president any special concern. He let it be known this afternoon that if Ameri-

can coal cannot be procured he will get foreign coal, and if American ships should be chartered to transport what the navy collars can't carry he will charter foreign colliers.

JOHN W. BYNG GIVEN NICE PROMOTION.

Dunn mercantile agency at Sedalia, Mo., for several years, and has been promoted to manager of the agency at Charleston, S. C. He is an energetic and deserving young man, and has risen steadily since employed in the mercantile agency.

S.S.S. FORTY YEARS OF CURES

Long experience and thorough testing have proven S. S. S. to be the King of blood purifiers and the greatest of all tonics. For nearly half a century S. S. S. has been used in the treatment of blood and skin diseases of every character, and so satisfactory have been the results that it is now the best known and most widely used blood medicine on the market. S. S. S. attracted attention as soon as it was placed on the market by curing promptly those diseases for which it was recommended, and we have so jealously guarded its first good reputation, by keeping it up to its standard in manufacture, that it now has the unequalled and pleasing record of "Forty Years Of Cures." For Rheumatism, Catarrh, Scrofula, Sores and Ulcers, Skin Diseases, Contagious Blood Poison, and all other diseases due to an impure or poisoned condition of the blood, there is nothing that equals S. S. S. It counteracts and removes the germs and poisons, cleanses the system of all unhealthy matter, cures the trouble permanently, and restores strong, robust health. Where the blood is weak or anaemic and unable to nourish the system as it should, S. S. S. supplies it with the needed properties, and being a bracing, invigorating tonic it builds up the entire system. It goes to the very bottom of all blood disorders, and in this way reaches deep-seated and inherited cases on which the ordinary sarsaparillas and tonics have little or no effect. Not only is S. S. S. certain in its results, but it is an absolutely safe medicine. It enjoys the distinction of being the only blood medicine on the market that is guaranteed purely vegetable. If you are in need of a blood remedy begin the use of S. S. S., the medicine that has proven its worth by its record of forty years of cures. Book on the blood and any medical advice you wish. No charge for either. THE SWIFT SPECIFIC CO., ATLANTA, GA.

LOCAL HORSEMEN SHOWING UP WELL

Class of Horses Owned Here
Has Greatly Improved.

Last Night of Horse Show Equals
Others in Interest and Crowd
Was Large.

WILL BE REGULAR FEATURE.

Paducah's third and most successful horse show closed last night, and while the attendance was not so large as it was on the three previous nights it was a good crowd for the closing events.

The show has been a great success in every way. While the association may not not make any money, it is a certainty that it has not lost any. The number of entries for the events this year have been greater than ever before, and the standard of horses entered surpassed the other years immeasurably.

One gratifying feature of the show was the success local horsemen had in the different events. Mr. Wynn Tully especially being successful.

It is too early to consider plans for next year, but it is almost a certainty that the horse show has become a fixed event. It certainly is a good advertising feature for Paducah, and one that has been more appreciated this year than heretofore.

Last Night's Events.

The first event, for the best boy rider, under 16 years of age, brought out a large number of entries and proved as interesting a feature as any of the entire show. After some very good exhibitions of riding the judges gave the prize, a handsome saddle and bridle, to Henry Burnett, son of Mr. Muscoe Burnett.

Riggs Bros. entry won first in the best trotting stallion, shown to run about event; Mr. R. B. Phillips second and Key Bros. third.

Linn Boyd, Jr., was the only entry in the best saddle stallion event and was given first money.

E. H. Halley won first prize in the best pacing roadster event; Thomas Settle second and T. E. Tucker third.

The best single carriage horse, shown to a two-seated buggy, driven by a lady and accompanied by three ladies, was a pretty one. Mrs. L. Gregory, accompanied by Mrs. L. D. Wilcox, Mrs. G. H. Warneken, of Clarksville, and Mrs. Anne Merryman, of Clarksville, received the first award. Mrs. Wynn Tully second and Mrs. Ben Billings third.

The final event was for pair of roadsters, stallions, mares or geldings, with entries owned by Edelin and James, O. L. Gregory, Wynn Tully and Owen Tully. Wynn Tully won first, Edelin and James second and Owen Tully third money.

METHODIST UNION

BEING PROMOTED IN A PRACTICAL MANNER.

Conference at Louisville Appoints
Committee To Take Up School
Problem.

Louisville, Sept. 28.—The long-sought goal, the consolidation of the Methodist church in the United States, is being approached more definitely every year and in the conference now in progress at Trinity church of the Kentucky M. E. church this paramount issue has taken a definite form. With the appointing of a committee to advise and confer with executive bodies of the various conferences of the Methodist church in Kentucky, a spirit of fraternity is being shown, and despite the fact the conferences of Kentucky cannot of their own efforts effect a consolidation, they at least intend to put the two churches in this state on a harmonious footing.

This step will be felt in the educational department to a great and profitable extent, and it is the purpose of the conferences to merge into one both the executive boards which control and shape the policies of the educational institutions in the state. The move may have the result of bringing together the colleges now under the control of the two boards.

RIVER NEWS

River Report.

Cairo	13.6	0.2	rise
Chattanooga	6.8	2.5	fall
Cincinnati	14.4	2.7	rise
Evansville	7.3	0.4	rise
Louisville	4.9	0.1	rise
Mt. Carmel	2.3	0.1	fall
Nashville	5.6	0.2	rise
Pittsburg	5.9	0.9	rise
St. Louis	9.3	0.2	rise
Mt. Vernon	6.4	0.5	fall
Paducah	7.1	0.1	rise

The river continues about stationary at Paducah with little prospect of an early improvement. The gauge showed 7.01 today which is a rise of only .1 since yesterday.

The Saltillo will be in tonight from the Tennessee river.

The Dick Fowler left for Cairo this morning on her last trip until after she returns from the trip down the Mississippi and is then thoroughly repaired at the ways. The J. B. Richardson, which was to make the regular trips of the Fowler between here and Cairo is not yet off the docks and the Dunbar will be in the trade until the Richardson is ready. The Dunbar will leave here Wednesday at midnight to accommodate those who wish to go down to Cairo to meet President Roosevelt and his party. The Dick Fowler will leave Wednesday evening.

The Kentucky will get out tonight for the Tennessee river in the place of the Chattanooga, which will lay up for repairs.

The big towboat Sprague is still tied up over at the island waiting for a more favorable stage of water before carrying her big fleet of empty coal barges on to Louisville.

The Royal was in and out on time today. She carried home a large crowd of southern Illinois people who have been here attending the different attractions of the week.

The Joe Fowler got out for Evansville last night at 11 o'clock. The Butterff, which is making the regular run of the Hopkins, did not get in until yesterday morning.

On account of the low water in the lower Ohio river, the J. B. Finley, on her way down, bound for New Orleans, with a tow of thirty-seven barges, found when she reached Golconda that the water was too shallow at the Sisters bar. She turned and went to Weston, Ky., to tie up until more water comes. The water at the Sisters bar is giving the boats trouble. * * * The steamer Nellie is coming up from Memphis to go into winter quarters at Paducah. She carried the Bloomer Girls' baseball club up and down the river the past season and will do the same next season.—Cairo Bulletin.

Official Forecasts.

The Ohio at Evansville and Mt. Vernon, not much change during the next 48 hours. At Paducah and Cairo, will continue rising slowly during the next 36 hours.

The Tennessee at Florence, will continue rising during the next 36 hours, probably reaching a stage of 8 feet. At Johnsonville, will continue rising during the next 2 days. The Mississippi from below St. Louis to Cairo, will continue rising slowly during the next 36 hours.

Arlington, S. D., Sept. 27.—Miss Hilda Newstrom, daughter of C. F. Newstrom, of this city, will carry a permanent scar on her side in the shape of a figure on the wallpaper in her bedroom as the result of lightning striking the Newstrom residence. The lightning hit the chimney and ran down into the room in which

Miss Newstrom was sleeping. It tore her bed to pieces and covered her with bricks and plaster.

It is supposed that a piece of plaster with the paper adhering was hurled against her, burning the pattern in the flesh. She is seriously injured, but the doctors say she will recover.

Lightning is most destructive in level, open country. Cities, with their numerous projections and wires, are comparatively exempt.

CHAPTER IX.

THE next letter Dorothy received bore Russian stamps and was dated at the blacksmith's shop, Bolshoi Prospect, St. Petersburg. After a few preliminaries which need not be set down here Drummond continued:

"The day after Jack arrived in London, there being nothing whatever to detain him in England, we set off together for St. Petersburg and are now domiciled above his blacksmith shop. We are not on the fashionable side of the river, but our street is wide, and a very short walk brings us to a bridge which, being crossed, allows us to wander among palaces if we are so disposed. We have been here only four days, yet a good deal has already been accomplished. The influence of the prince has smoothed my path for me. Yesterday I had an audience with a very important personage in the foreign office, and today I have seen an officer of high rank in the navy.

"The prince warns me to mention no names, because letters, even to a young lady, are sometimes opened before they reach the person to whom they are addressed. These officials who have been kind enough to receive me are gentlemen so polished that I feel quite uncouth in their presence. I am a little shaky in my French and feared that my knowledge of that language might not carry me through, but both of these officials speak English much better than I do, and they seemed rather pleased I had voluntarily visited St. Petersburg to explain that no discourtesy was meant in the action I had so unfortunately taken on the Baltic, and they gave me their warmest assurances they would do what they could to ease the tension between our respective countries. It seems that my business here will be finished much sooner than I expected, and then I am off on the quickest steamer for New York in the hope of seeing Niagara falls. I have met with one disappointment, however. Jack says he cannot possibly accompany me to the United States. I have failed to arouse in him the faintest interest about the electric works at Niagara. He insists that he is on the verge of a most important discovery; the nature of which he does not confide in me. I think he is working too hard, for he is looking quite haggard and overdone, but that is always the way with him. He throws himself heart and soul into any difficulty that confronts him and works practically night and day until he has solved it.

"Yesterday he gave the whole street a fright. I had just returned from the foreign office and had gone upstairs to my room when there occurred an explosion that shook the building from cellar to roof and sent the windows of our blacksmith's shop rattling into the street. Jack had a most narrow escape, but is unhurt, although that fine beard of his was badly singed. He has had it shaved off and now sports merely a moustache, looking quite like a man from New York. You wouldn't recognize him if you met him on Broadway. The carpenters and glaziers are at work today repairing the damage.

"I told Jack that if this sort of thing kept on I'd be compelled to patronize another hotel, but he says it won't happen again. It seems he was trying to combine two substances by adding a third, and, as I understood him, the mixing took place with unexpected suddenness. He has endeavored to explain to me the reaction, as he calls it, which occurred, but I seem to have no head for chemistry, and, besides, if I am to be blown through the roof some of these days it will be no consolation to me when I come down upon the pavement outside to know accurately the different elements which contributed to my elevation. Jack is very patient in trying to instruct me, but he could not resist the temptation of making me ashamed by saying that your friend, Miss Katherine Kempf, would have known at once the full particulars of the reaction. Indeed, he says she warned him of the disaster by marking a passage in a book she gave him which foreshadowed this very thing. She must be a most remarkable young woman, and it shows how stupid I am that I did not in the least appreciate this fact when in her company.

"The next letter was received a week later. He was getting on swimmingly, both at the foreign office and at the Russian admiralty. All the officials he had met were most courteous and anxious to advance his interests. He wrote about the misapprehensions held in England regarding Russia and expressed his resolve to do what he could when he returned to remove these false impressions.

"Of course," he went on, "no American or Englishman can support or justify the repressive measures so often carried out ruthlessly by the Russian police. Still even these measures are exaggerated, for the police have to deal with a people very much different from our own. It is rather curious that at this moment I am in vague trouble concerning the police. I am sure this place is watched, and I am also certain that my friend Jack is being shadowed. He dresses like a workman. His grimy blouse would delight the heart of his friend Tolstoi, but he is known to be a prince, and I think the authorities imagine he is playing up to the laboring class, whom

they despise. I lay it all to that unfortunate explosion, which gathered the police about us as if they had sprung from the ground. There was an official examination, of course, and Jack explained, apparently to everybody's satisfaction, exactly how he came to make the mistake that resulted in the loss of his beard and his windows. I don't know exactly how to describe the feeling of uneasiness which has come over me.

"At first sight this city did not strike me as so very much different from New York or London, and, meeting as I did, so many refined gentlemen in high places, I had come to think St. Petersburg was, after all, very much like Paris or Berlin or Rome. But it is different, and the difference makes it subtly felt, just as the air in some coast towns of Britain is relaxing and in others bracing. In these towns a man doesn't notice the effect at first, but later on he begins to feel it, and so it is here in St. Petersburg. Great numbers of workmen pass down our street. They all seem to know who the prince is, and the first day we were here they saluted him with a deference which I supposed was due to his rank, in spite of the greasy clothes he wore. Since the explosion an indefinable change has come over these workmen. They salute the prince still when we meet them on the street, but there is in their attitude a certain sympathy, if I may so term it, a bond of camaraderie, which is implied in their manner rather than expressed. Jack says this is all fancy on my part, but I don't think it is. These men imagine that Prince Ivan Lermontoff, who lives among them and dresses like them, is concocting some explosive which may yet rid them of the tyrants who make their lives so unsafe. All this would not matter, but what does matter is the chemical reaction, as I believe Jack would term it, which has taken place among the authorities. The authorities undoubtedly have their spies among the workmen and know well what they are thinking about and talking about. I do not believe they were satisfied with the explanations Jack gave regarding the disaster. I have tried to impress upon Jack that he must be more careful in walking about the town, and I have tried to persuade him after work to dress like the gentleman he is, but he laughs at my fears and assures me that I have gone from one extreme to the other in my opinion of St. Petersburg. First I thought it was like all other capitals; now I have swung too far in the other direction. He says the police of St. Petersburg would not dare arrest him, but I'm not so sure of that. A number of things occur to me, as usual, too late. Russia, with her perfect secret service system, must know that Prince Lermontoff has been serving in the British navy. They know he returned to St. Petersburg, avoids all his old friends and is brought to their notice by an inexplicable explosion, and they must be well aware also that he is in the company of the man who fired the shell at the Rock in the Baltic and that he himself served on the offending cruiser.

"As to my own affairs, I must say they are progressing slowly, but satisfactorily. Nevertheless if Jack would leave St. Petersburg and come with me to London or New York, where he could carry on his experiments quite as well, or even better than here, I should depart at once, even if I jeopardized my own prospects."

"The next letter, some time later, began: 'Your two charming notes to me arrived here together. It is very kind of you to write to a poor exile and cheer

him in his banishment. I should like to see that dell where you have swung your hammock. Beware of Hendrik Hudson's men, so delightfully written of by Washington Irving. If they offer you anything to drink, don't you take it. Think how disastrous it would be to all your friends if you went to sleep in that hammock for twenty years. It's the Catskills I want to see now rather than Niagara falls. Your second letter containing the note from Captain Kempf to Jack was at once delivered to him. What on earth has the genial captain written to effect such a transformation in my friend? He came to me that evening clothed in his right mind in evening rig out, with his decorations upon it, commanded me to get into my dinner togs, took me in a carriage across the river to the best restaurant St. Petersburg affords, and there we had a champagne dinner in which he drank to America and all things American. Whether it was the enthusiasm produced by Captain Kempf's communication or the effect of the champagne, I do not know, but he has reconsidered his determination not to return to the United States, and very soon we set out together for the west.

"I shall be glad to get out of this place. We were followed to the restaurant, I am certain, and I am equally certain that at the next table two police spies were seated, and these two shadowed us in a cab until we reached our blacksmith's shop. It is a humiliating confession to make, but somehow the atmosphere of this place has got on my nerves, and I shall be glad to turn my back on it. Jack pools the idea that he is in any danger. Even the governor of St. Petersburg, he says, dare not lay a finger on him, and as for the chief of police, he pours scorn on that powerful official. He scouts the idea that he is being watched, and, all in all, is quite humorous at my expense, saying that my state of mind is more fitting for a schoolboy than for a stalwart man over six feet in height. One consolation is that Jack now has become keen for America as I am. I expect that the interview arranged for me tomorrow with a great government official will settle my own business finally one way or another. While ago I was confident of success, but the repeated delays have made me less optimistic now, although the gentle courtesy of those in high places remains undiminished.

"Dear Miss Amburst, I cannot afford to fall lower in your estimation than perhaps I deserve, so I must say that this fear which has overcome me is all on account of my friend and not on my own behalf at all. I am perfectly safe in Russia, being a British subject. My cold and formal Cousin Thaxted is a member of the British embassy here, and my cold and formal uncle is a cabinet minister in England, facts which must be well known to these spy informed people of St. Petersburg. So I am immune. The worst they could do would be to order me out of the country, but even that is unthinkable. If any one attempted to interfere with me, I have only to act the hero of the penny novelette, draw myself up to my full height, which, as you know, is not that of a pygmy, fold my arms across my manly chest, cry, 'Ha, ha!' and sing 'Rule Britannia,' whereupon the villains would wilt and withdraw. But Jack has no such security. He is a Russian subject, and, prince or commoner, the authorities here could do what they liked with him. I always think of things when it is too late to act. I wish I had urged Jack ashore at Bar Harbor and induced him to take the oath of allegiance to the United States. I spoke to him about that

"Whereupon the villains would wilt and withdraw."

coming home in the carriage, and, to my amazement, he said he wished he had thought of it himself at the time we were over there.

"But enough of this. I dare say he is in no real danger after all. Nevertheless I shall induce him to pack tomorrow, and we will make for London together, so my next letter will bear a British stamp, and I assure you the air of England will taste good to one banished Britisher whose name is Alan Drummond."

BAILEY PRECINCT FRAUD IS EXPOSED

Grand Jury Indicts Officers Guilty of Corruption.

Big Republican Rally Presages Victory in Louisville for the Party This Fall.

WOULD HAGER VOTE FOR TYLER

Frankfort, Ky., Sept. 28.—Such overwhelming evidence of the actual commission of the colossal crimes against the ballot, the methods of voting trees and clothing in the 1903 election at the Bailey mill precinct, in Franklin county, were exposed, was presented to the Franklin grand jury, but twelve days after the publication of the story, the grand jury returned indictments against the officers of election in that precinct, all of whom were prominent Democrats.

Three men were indicted, E. D. Hopper, one of the judges of the election, having recently died. The others are E. L. Watkins, judge; John Watkins, sheriff, and James W. Waldner, clerk. The specific charge against them is forging names of lists of voters, and the penalty is a fine of \$1,000, or a year's imprisonment or both.

The grand jury heard the evidence of George A. Newman, Jr., editor and publisher of the Herald; Ben S. Washer, managing editor of the Herald; Col. Albert Scott, chairman of the Republican campaign committee; George W. Long, United States marshal for the western district of Kentucky, and Grant Roberts, an employee of the internal revenue department, to whom is due the credit for having first discovered indications of the gigantic frauds. Former Gov. W. O. Bradley was summoned, but was excused.

An interesting fact in connection with the case is that the stub book for the precinct disappeared.

The men indicted are all farmers. They will likely be arrested tomorrow and as they are well known, it is understood that they will be able to give bond.

Big Republican Rally.

Louisville, Sept. 28.—Presaging a Republican victory of tremendous proportions at the polls next November, the Republican city and county campaign opened at Hopkins theater Thursday evening with a boom that reverberated from the Point to Portland and from the river to South Louisville. James Grimstead, "the people's candidate for mayor," W. Marshall Bullitt, "the people's champion," and Augustus E. Willson, Republican candidate for governor, were given an ovation that made words small and tame in the effort to describe them.

The theater was crowded to its utmost capacity, with persons standing on every floor, and many were turned away at the doors because no further room could be found. The stage was occupied by fifty representative citizens as vice presidents of the meeting, accompanied by their wives and friends, and the stage and theater were decorated with the national colors. At the right was a large portrait of Mr. Grimstead and on the left another of Mr. Willson, each draped with the American flag.

Would Hager Vote for Tyler.

Madisonville, Ky., Sept. 28.—"Would Mr. Hager vote for Owen Tyler if he was a voter of Louisville?" is the pointed way in which former Governor Bradley put the situation before the audience that occupied every inch of space in the court house here this afternoon.

The crowd saw the point, and gave vent to its appreciation in unmistakable applause. It was only one of the many things that the old warrior of the Republican party said which are calculated to give the Democratic candidate for governor many moments of uneasiness.

QUENTIN HAD SNAKES.
Young Son of President Entertains White House Visitors.

Washington, Sept. 27.—During the rush of visitors to the white house this morning Quentin, youngest son of the president, entered the ante-room of the president's office on roller skates.

"Is father here?" he asked of one of the secret service men, and without waiting for an answer he entered the cabinet room where a number of visitors were seated and passed through to the president's office.

Quentin had in his hand a live king snake about three feet long, and from his pocket he produced two more snakes of the garter variety also alive and a-wriggling. Mr. Roosevelt brought the boy back into the cabinet room, remarking to his visitors:

"My young son here will entertain you with some snakes while you are waiting."

Commercial Club Adopts Fine Resolutions About Secretary Coons

We, the undersigned, the committee appointed by the Paducah Commercial club to draft suitable resolutions upon the resignation of D. W. Coons our secretary, and his departure from the city, beg to report as follows:

Whereas, our worthy secretary, Mr. D. W. Coons, has seen fit to resign his position as secretary of our club, for the purpose of embarking in some other business in some far off state.

Whereas, his resignation has been accepted with profound regret we feel that the highest tribute is due him and should be paid to him for the manner he has discharged his many and arduous duties incumbent upon him.

It should be said of him and we say it without hesitancy that he is endowed with the ability of a thorough business man, with executive abilities high above the average man, and the faculty of approaching men occupying lofty positions in life, and making a good and lasting impression for whatever cause he may be championing.

Whereas, Mr. Coons has served the Paducah Commercial club for three years and the community in general in a most competent, loyal, honest and honorable manner, that the work that he has done for the city of Paducah, the county of McCracken, and the Paducah Commercial club, is of such enduring nature, be it therefore,

Resolved, That the Paducah Commercial club deplores his resignation and departure, and feels that it will be a difficult task to fill the position with such a capable, zealous, and hard working secretary as he was, in addition his loss to the city will be keenly felt, be it therefore,

Resolved, That the Paducah Commercial club bespeaks for him in any field of labor, or any community he may hereafter reside, or in any capacity the highest consideration, regard and confidence, and wish him Godspeed and success in any work

he may undertake, and which he so richly merits.

Resolved, That, these resolutions be spread upon our minutes, that a copy be handed to Mr. Coons, and that same be published in the Paducah newspapers.

It is the duty of every voter to register Tuesday and register early. Sickness, business or one of many unforeseen contingencies may arise to prevent your registering in the afternoon. Your party workers will be looking after the voters to see that they get out. Everyone who registers voluntarily and early relieves them of that much responsibility and gives them the more time to look up the dilatory. Go early and speak to your neighbors about registration. Tuesday's registration may decide the local election. The party whose vote gets out first will have the advantage.

New Departure in Banking.

The American-German National bank has adopted the plan of having annual examinations and audits made by expert public auditing companies. Such examinations as auxiliary to the regular examinations made by the government are made by many large city banks for the purpose of affording an additional guaranty of the accuracy and soundness of the bank. The Baker-Vawter company, of Chicago and New York, one of the largest and best known auditing companies in the country, has just finished the examination.

TOBACCO NEARLY ALL SOLD CAUSES BANK SITUATION

Bank clearings \$661,619
Same period 1906 655,367

Increase 6.252

Notwithstanding the general contraction of business throughout the country the volume of business in Paducah during the past week has been satisfactory and the increase in clearings for the week over the same period last years, though small, is encouraging indeed, as for the last few weeks the clearings have shown a slight decrease.

Bankers say that conditions this season are entirely different from that of last. One thing especially that affects bank clearings is that the tobacco has about been sold and off the market was on at its height at this time last year.

Paducah wholesale merchants have had a splendid trade this week and collections have been exceptionally good for the season.

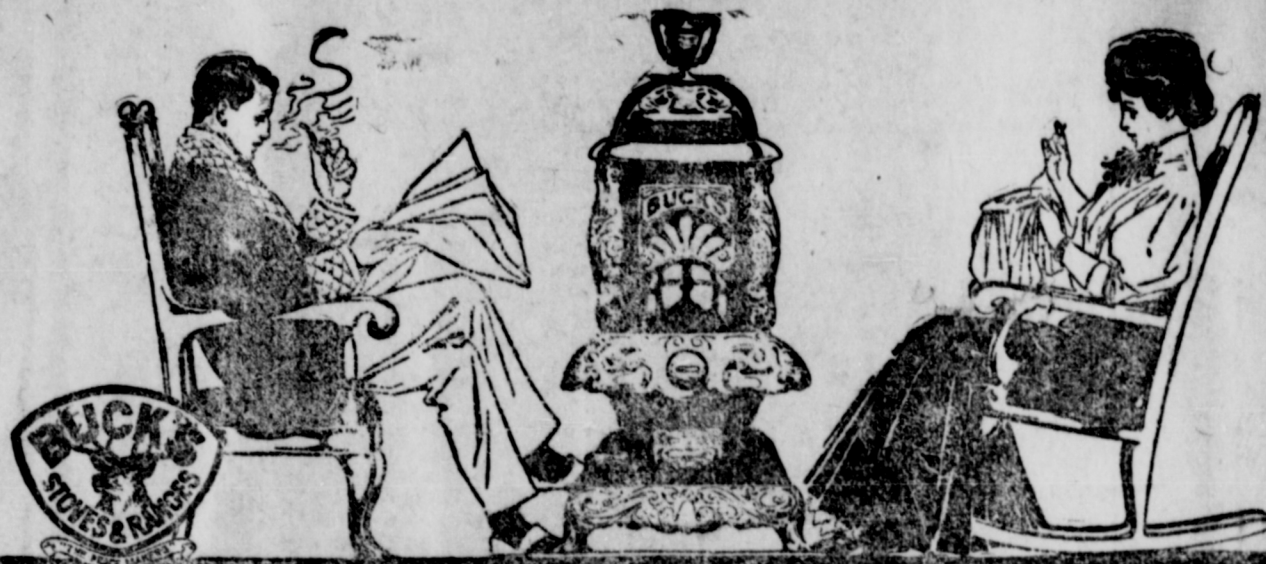

The two medicine manufacturing plants report an exceptionally good business and heavy cash receipts.

To a great extent the week has been a holiday with the general public. The banks have closed their doors at 2 o'clock every evening since Monday.

Speed Mad People.

New York, Sept. 28.—Eight thousand speed mad people watched the 24-hour auto race all last night. Cedrine and Parker in the 65 horse power car are still in lead of 4 miles. L. W. After all, the fame that comes to the average man is but a bubble caused by blowing his own horn.
